

## General Notice

Dated: 28 Nov., 2014

This is to inform to all concerned that Our Centre ICAR- institute National Centre for Integrated Pest Management, LBS Building, Pusa, New Delhi has invented improved insect light trap technology viz., “Light trap safer to beneficial insects” , “light trap for managing insects” and others. It came to our notice that some firms/entrepreneurs of many states viz., Rajasthan, Orissa, M.P., Haryana, A.P., Tamil Nadu and others have tried to copy/infringement of the IPR rights of these inventions and fabricate, market the same or in the name of ‘similar models’ etc. and also tried and trying to get it tested in their name from R & D Centres, KVKs, SAUs and others which is illegal and against the well established laws of IPR. The NCIPM has invented and filed patent for insect light trap viz., “Light trap safer to beneficial insects” and “Light Trap for managing insects”. No firm(s) /entrepreneur(s) is authorized to manufacture/sell the product without permission /license from the NCIPM.
