

ICAR-National Research Centre for Integrated Pest Management

LBS Building, Pusa Campus, New Delhi

Date: 17-11-2018

Online Software under the project “ICT based Pest Surveillance and Advisory Services for Horticultural Crops in Haryana” launched and manual for pest surveillance for major horticultural crops was released on 16 November 2018 at Horticulture Training Institute, Karnal. Dr Arjun Singh Saini, DG, Horticulture Department, Haryana and Dr HR Sardana, Director, ICAR-NCIPM chaired the program. Dr. Mahender Singh, DH and Dr. Shiv Kumar HOD, Haryana also attended the programme.

After launching of software, training to scouts for pest identification and first-hand operation of e-pest surveillance software was provided by Dr Niranjn Singh. Dr Sardana and Dr MN Bhat explained about various important pest and diseases of tomato and cole crops.
